

## ProRig Wire Rope

ProRig wire rope is sourced from a selected Korean manufacturer to supply you with what we believe is the best stainless steel wire rope available worldwide. With more than 40 years experience manufacturing wire rope, our factory's greatest emphasis is on material quality, surface brightness, finish, and a strong desire to make the worlds best product.

Highly skilled staff, state of the art equipment, innovation and strict quality control ensure that the highest possible quality is achieved every time. This has resulted in ProRig wire rope being tried and tested in thousands of applications around Australia for more than a decade without a single product fault or failure.

## Quality Control Processes

- All wire rope is supplied and marked with the ProRig brand name
- All raw material is sourced from POSCO, one of the worlds most reputable raw material suppliers
- De-scaling of the stainless steel rods conducted to remove any contaminants prior to production
- Subjected to multiple annealing processes
- Analysed for consistent shine and brightness
- Passed through multiple ultrasonic baths to remove any impurities
- Multiple quality control checks, laboratory analysis, testing and final break load tests
- Wire rope can be manufactured in accordance with DIN, JIS, AISI & other applicable standards upon request
- Supplied with full mill certificates (upon request)
